Uniontown USD #235—Uniontown, KS 66779

<http://www.uniontown235.org>

## Notes From Mr. Rockhold.....

*During the Holiday Season we often take the time to focus on the things we are truly thankful for and the things that are our greatest priority. I believe we should all take some time to be thankful for the exceptional staff that we have at Uniontown USD #235. The groups of individuals who work with your children on a daily basis are highly qualified professionals and they also care greatly about your child. We should also take time to realize how blessed we are to have such an amazing group of students. The students at Uniontown come to school each day and are cooperative, work hard, and strive to improve. Uniontown USD #235 is blessed to have exceptional community support. The patrons and parents in Uniontown schools truly value and respect*

*education and the education profession. I have worked in many areas of our country and I can verify that the respect and value for education isn't a priority everywhere. We should all be thankful for the staff, students, parents, and patrons of this community. It takes everyone working toward a common goal to ensure all students reach their potential. What a blessing to live in a district where everyone is striving for excellence. This is a great recipe for success!*

## Notes From Mr. Smith...

*As we finish up the first semester already, we wish to thank you for choosing West Bourbon Elementary as your "home" school. The growth and maturity of your kids has been amazing to watch and be a part of! The success of our recent Cookie Dough fund-raiser has allowed us to purchase and install in **EVERY** classroom an ELMO unit along with a projector. This equipment has been well received by your children and our teachers alike, and has definitely made an impact on day-to-day learning. Thank-you! The WBE Student Council has once again been an active organization for our school. They have defined our "Dress Up Days" for the year, added support for our recent attempt to break the Guinness World Record Cup Stacking Event, organizing "Polar Express Day" in December, and numerous events*

*that will happen during the second semester! This semester has for sure been busy, but your kids are excited about school, safe and are learning! Please plan on attending the K-3 Winter Music Program on December 6 here at the WBE gym. These are wonderful memories that you can never get back and we hope that you will join us.*

*Additionally, as Winter Break is soon upon us, we ask that you continually encourage your child to read at home over the holidays, have your own special "Family Fun Night," and to always give thanks for all that you do have...your kids!*
