

“Protect Your Family From Fire”

The Galena Fire Department visited on October 14. It was in honor of the 2011 “Fire Prevention Week”. “Protect Your Family From Fire” was the title of the presentation. The WBE students visited “The Velma Archer Safety House for Kids”. They have been taught what to do if there is a fire in their home and how to prevent them from starting. “In 1998 there was 49,200 heating related fires, resulting in 388 deaths, 1,445 injuries, and over 515 million dollars in property damage. Two out of three home heating fires and three out of every four deaths were due to space heaters.”
